Below the header, a banner features the Georgia state seal and the text: 'Open Georgia is a gateway for obtaining information and key documents about how the State of Georgia spends tax dollars and other revenues to provide services to Georgians. The information maintained on this site comes from various state agencies and is updated annually.'

The main content area is titled 'Professional Services' and contains a search form. The form includes the following fields:

- Fiscal Year :** A dropdown menu set to '2013' with a subtext '[July 1 - June 30]'.
- Organization Type :** Radio button options for:
  - State Agencies,Boards,Authorities and Commissions
  - Units of the University System

Buttons for 'Back To Main' and 'Advance Search' are located at the top of the form area. A 'Search' button is located at the bottom of the form area.

3. You can choose multiple categories together but please note that Vendor Name and Description are not linked together so if you choose a vendor and then try to choose a description, you have to know what descriptions are tied to that vendor and you may not make a match.
- When searching for vendors, enter the first letter of the name and a drop down box will display a list of valid vendors for that organization. The more letters you type, the closer match you will receive.

This screenshot shows the 'Vendor Name' dropdown menu from the search interface. The text 'COM' is entered in the input field, and a list of matching vendors is displayed below it. The vendors listed are:

- COMBES INTEGRATORS
- COMBEST INC

## Message from the Governor

Consistent with my commitment to transparency of ARRA funds, this website has been updated to reflect spending and jobs activity for each ARRA program in Georgia's State Government through December 31, 2012. The updates include the latest 1512 reports, as well as data from other ARRA programs that do not submit 1512 reports.

The website provides a map that lists ARRA funding by county, a dashboard that shows spending, jobs, and performance data for each award, and detailed reports for programs, sub-recipients and vendors.

Information from these web features will provide citizens with up-to-date insights on the use of stimulus funds and will further demonstrate that State agencies are working hard to ensure that these funds are used to the fullest benefit for Georgia citizens.
